

Discuss the respect

**We have formed a debating society
with 4th graders.**

We discussed the definition of respect, its meaning and how we show our respect.

We imagined how we tribute the monument of historical heroes.

We remember them by obeisance.

We discussed the way we show respect for each other.

Boys salute girls on Women's Day.

They show their respect with a flower.

**We honor many people their
outstanding achievements. The
learners mentioned athletes, artists,
scientists, politicians and so on.**

In honour of winners we stand up and listen to the national anthems.

We respect our national symbols.

Our national flag is essential on every official occasion.

We practiced the ways we can hold the flag during official ceremonies.

The children took the task seriously.

They practice with full determination.

The boys greet each other by shaking hands.

The girls are more immediate. They give a small kiss to each other.

Learners showed their respect and esteem to each other well. They were active in the The situational plays and tasks.

They acknowledge the virtue of adults and their mates in different froms.
